

INFORMATION FOR ASBMR 2014 ANNUAL MEETING

ORAL POSTER PRESENTATIONS

The oral poster session is a unique opportunity for the authors of the highest scoring posters to present their research in a fast-paced oral session that underscores the major findings of their work. Each speaker will be given **five minutes** for their presentation. There will be no Q&A section during the Oral Poster Session. Please adhere to the following guidelines for your presentation:

- Your presentation **must be no more than five minutes***.
- You may have **up to 5** content slides – this **does not** include your title or disclosure slides.
PLEASE NOTE: Any presentation that has more than the allowed 5 content slides will be reviewed and the additional slides will be deleted prior to presentation.
- Your slides should be concise and to the point, briefly highlighting the goals, the main findings and the pertinent conclusions. You **do not** need an acknowledgment slide since this information will be on your poster.
- Please be sure to include your presentation number on one of your slides so that attendees can visit your poster during the Poster Session that follows.
- You should arrive at least 10-15 minutes before the start of the session and check in with the moderators of the session, so they can verify your participation.
- Please rehearse your talk with your colleagues so that you are confident your presentation is clear, the slides are easy to read and understandable, and you do not run over the time allotted.
- Be prepared to answer questions on your work at the Poster Session. If you feel you are unable to give a clear presentation and/or to fully understand and answer questions, the talk should be given by a colleague who can. If this is the case and another colleague will make the presentation on your behalf, the colleague should make sure to notify the moderators of this change prior to the start of the session.
- If you have received NIH or other funding for the work presented in your presentation and/or have any Conflict of Interest information, please make sure to include acknowledgment of this support or disclosure information on the second slide of your presentation.
- If your presentation is treatment-related, you must give a balanced view of therapeutic options by providing several treatment options, whenever possible, and by always citing the best available evidence.

*The five-minute time limit for your talk will be strictly enforced because of the number of presentations and the length of the session. Remember, attendees will be encouraged to visit your poster during the Poster Session that follows your session.
