

**ASBMR President
Sundeep Khosla, M.D.
Associate Director for Research
College of Medicine, Mayo Clinic**

Dr. Khosla's research focuses on the pathogenesis of postmenopausal and age-related bone loss, mechanisms of sex steroid action on bone and osteoprogenitor/stem cell biology. He is currently the Dr. Francis Chucker and Nathan Landow Professor of Medicine at the Mayo Clinic in Rochester, MN.

A graduate of Harvard University and Harvard Medical School, Dr. Khosla did his residency and Endocrine fellowship training at the Massachusetts General Hospital in Boston. He is the recipient of many prestigious awards and honors, including: the ASBMR Award for Outstanding Research in the Pathophysiology of Osteoporosis and the Frederick C. Bartter Award for outstanding clinical investigation in metabolic bone diseases; the Mayo Distinguished Investigator Award; the National Osteoporosis Foundation Innovation in Osteoporosis Research Award; and the Clinical Investigator Award Lecture from the Endocrine Society.

In addition to his long-standing involvement in ASBMR, he has also held leadership positions with The Endocrine Society, National Osteoporosis Foundation and as the Chair of the NIH SBDD Study Section and on the Council of the National Institute on Aging. He is a member of the American Society for Clinical Investigation and the Association of American Physicians, and currently serves as Chair of the Governance Committee of the National Bone Health Alliance.

Dr. Khosla is also Associate Editor of the *Journal of Bone and Mineral Research* and has served or is serving as a member of the editorial boards for the *Journal of Clinical Investigation*, *Journal of Bone and Mineral Research*, *Journal of Clinical Endocrinology and Metabolism*, *Bone*, and *Endocrine Reviews*.
