

The American Society for
Bone and Mineral Research

FY13 ANNUAL REPORT

WE MAKE THE DISCOVERIES THAT KEEP BONES HEALTHY FOR A LIFETIME.

The American Society for Bone and Mineral Research (ASBMR) advances bone, mineral and musculoskeletal science around the world and promotes the translation of basic and clinical research to patient care. A large portion of our financial resources is spent on activities which directly advance our understanding of the science through scientific meetings, industry-leading publications and educational programs. Significant investment is made in grant and award programs targeted to ease the impact of research funding challenges and to actively engage trainees and young investigators to ensure a dynamic pipeline of future investigators. We strive to develop programs and services for our members designed to advance their research goals, address key concerns in basic science and clinical practice and invest in the development of the next generation of researchers in the field.

SUMMARIZED FINANCIAL INFORMATION

As of and for the Year Ending December 31, 2013

Statement of Financial Position	
	2013
Assets	
Total Assets	\$11,215,902
Liabilities and Net Assets	
Total Liabilities	\$721,110
Net Assets	\$10,494,792
Total Liabilities and Net Assets	\$11,215,902
Statement of Activities	
	2013
Revenues	
Total Revenues	\$5,939,843
Expenses	
Total Expenses	\$5,612,711
Change in Unrestricted Net Assets	\$327,132
Change in Temporarily Restricted Net Assets	(\$394,343)
