

Monday, July 18th, 2022
9:00am-4:30pm

433 1st Avenue, Room 220, 2nd floor
NYU Nursing, Dentistry, & Engineering Building

Featuring Sessions on:

Pain and Skeletal Diseases

Keynote Speaker:

"TBD"

Rajesh Khanna, PhD, New York University

"TBD"

Anne-Marie Malfait, MD, PhD, Rush Medical College

Bone Metastases and Bone Cancer

"Dact1 Biomolecular Condensates Mediate TGF β -Wnt Crosstalk in Bone Metastasis"

Yibin Kang, PhD, Princeton University

"CITED2 is a Driver of Prostate Cancer Bone Metastasis"

Juan Arriaga, PhD, Icahn School of Medicine at Mount Sinai

Poster Session

Stem Cells in Musculoskeletal Tissues

"Discovering Skeletal Stem Cells and Their Fates in Vivo"

Ling Qin, PhD, University of Pennsylvania Perelman School of Medicine

"Mesenchymal Stem Cells as Regulators of Skeletal Muscle Health"

Michael Wosczyzna, PhD, New York University School of Medicine

Senescence and Aging

"Cellular Senescence in Skeletal Disorder"

Mei Wan, PhD, Johns Hopkins Medicine

"Rejuvenating the Skeletal Stem Cell Niche. Is it Possible?"

Philipp Leucht, MD, PhD, New York University School of Medicine

Reception

The symposium will conclude with light refreshments and drinks!

Abstract Submission Deadline: 5/20/2022
