

Annual OI Foundation Scientific Meeting Young Investigator Travel Grant Application

In order to promote interest in the field of osteogenesis imperfecta research and to recognize the excellent work being done by young investigators in this field, the OI Foundation, with the support of the American Society for Bone and Mineral Research, is pleased to provide Young Investigator Travel Awards to attend the OI Foundation Scientific Meeting, *Mouse Models for Dominant and Recessive OI*, on April 10-12, 2013 in Chicago, Illinois. The OIF Scientific Meeting is consistently a high-quality, exciting meeting that brings together researchers and clinicians from around the continent, dedicated to finding improved treatments for people living with OI through scientific research.

Five travel grants are available to attend the meeting which will be held at the Sheraton Gateway Suites located at 6501 North Mannheim Road, Rosemont, IL 60018, located next to Chicago's O'Hare International Airport.

Investigators will be asked to provide a poster for display at the meeting. Please provide a 250-400 word abstract that describes your basic, clinical, or translational research directly related to osteogenesis imperfecta. Abstracts should be submitted in PDF format to thart@oif.org by February 25, 2013.

For more information, please contact Tracy Hart at thart@oif.org or 301-947-0083.

Application

Name _____

Address _____

Phone _____ E-mail _____

Institution Information – dates of attendance, degree/s received, area of study, or include NIH biosketch.

On a separate page, please explain your research in no more than 400 words.
